**PRELIMINARY AMENDMENT**  
**37 CFR § 1.115**

Dear Sir:

Please amend the above-identified application as follows:

In The Specification:

Please replace the paper and CRF copy of the sequence listing filed on November 16, 2000 with the sequence listing submitted herewith.

REMARKS

The sequence listing filed on November 16, 2000 contained errors in SEQ ID NO:3. The sequence listing submitted herewith corrects these errors. Specifically, a "C" has been added to the 5' end of SEQ ID NO:3 and nucleotide 2720 of the original sequence listing has been changed from a "T" to a "C". The nucleotide change at position 2720 does *not* alter the amino acid sequence set forth in SEQ ID NO:4.

As indicated on page 11, lines 11-12, 27-31 and page 12, lines 1-12 of the specification, the claimed nucleotide sequence was deposited with the American Type Culture Collection
